Art Unit: 3672

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 4, 5, 9 and 12-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 4, as presently amended (accompanying the RCE Request, dated May 25, 2004), includes terms or subject matter not present in the specification and/or original disclosure. More specifically, no basis can be found in the specification or original disclosure for a frame having a "first" end and a "second" end. Only a "front end 36" and "back end 44" are specifically disclosed. Accordingly, this rejection could be overcome if the recitation "a first end and a second end" in line 3 of claim 4 were amended to read -- a front end and a back end -- .

Claims 5, 9 and 12-24 are similarly rejected as they depend from claim 4. Otherwise, the additional limitations recited in claims 5, 9, 12-16, 18, 19 and 21-24 are deemed supported by the specification and/or original disclosure.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 3672

4. Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Insofar as parent claim 11 has now been cancelled ("Please cancel claim 1, 2,, 3, 6, 7, 8, 10 and 11 without prejudice."), dependent claim 25 is deemed indefinite since it now depends from a cancelled claim.

5. Claims 4, 5, 9 and 12-24 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, first paragraph, set forth in this Office action.

6. Applicant's arguments filed with the amendment have been fully considered but they are not persuasive.

More specifically, all the pending claims are now deemed in concurrence with 37 CFR 1.173, i.e., they compare directly to the patent claims, which must be the case with each amendment. Claim 4, however, is still deficient under 35 USC 112, first paragraph, in referring to a first end and a second end, rather than a front end and back end, as pointed out in the rejection set forth in Para 2). It further noted that in the REMARKS/ARGUMENTS applicant asserts that claim 11 is pending, however, the accompanying amendment clearly directs claim 11 to be cancelled.
